

INTRODUCTION

The **Holdings List of Journals and Serials** has been prepared with the help of **Micro CDS/ISIS Software for WINDOWS, version 3.07 (November 1998 ed., UNESCO 1998)**. This catalogue lists journals and serials available in the CTCRI Library. The entries are arranged in alphabetical sequence of the titles. Information regarding the changes in title such as '**Contd. as**', '**Contd. from**', etc. are given after the concerned title. Titles in **red colour denote international journals** and those in **green colour Indian**. A **Subject index** is also provided for quick reference.

The following details are given for a record wherever applicable. The title of the Journal, address of the publishers (when more than one journal is published by the same publisher, full address given only once along with the journal which appears first in the sequence), volume no. and the corresponding year after a semicolon, incomplete volumes and the gap in the set. For a periodical currently received in the library, a hyphen is given after the first available volume and the corresponding year. If the title is not current and its subscription has been discontinued, the starting volume and the last volume available and the respective years are given. Gaps in the set and the incomplete volumes are also indicated.
